SAI KARTHICK KALIDOSS

IT & Endpoint Support Technician | Microsoft Intune · Windows 10/11 · POS & Hardware Support

Ottawa, ON | +1 437-808-7799 | saikarthick.ca@gmail.com | linkedin.com/in/sai-karthick-kalidoss

PROFESSIONAL SUMMARY

Results-driven IT and endpoint support professional with hands-on experience administering Microsoft Intune, Windows Autopilot and Windows 10/11 environments across roughly 1,000 enterprise laptops at Giant Tiger. Proven in on-site and remote troubleshooting of Windows systems, POS terminals, registers, printers and peripheral hardware, supported by ServiceNow, Freshservice and Jira Service Management ticketing. Complemented by 3+ years at Amazon Alexa inspecting, testing and diagnosing connected hardware and firmware, with a disciplined approach to root cause analysis and documentation. Valid driver's licence and ready to travel between stores and sites.

TECHNICAL SKILLS

Device & Endpoint Management: Microsoft Intune, Endpoint Manager (MEM), Windows Autopilot, Windows 10 / 11, Multi-OS Device Management, MDM, Device Enrollment, Compliance Policies, Endpoint Security

Store & Field Support: On-site and Remote Support, POS Terminals, Registers, Printers, Scanners, Peripheral Devices, Hardware Installation, Hardware & Windows Troubleshooting, Preventive Maintenance

Remote Support & ITSM: TeamViewer, ServiceNow, Freshservice, Jira Service Management, Ticket Triage & Escalation

Networking & Connectivity: Network Connectivity Troubleshooting, Wi-Fi, TCP/IP Fundamentals

Identity & Productivity: Azure AD / Entra ID, Microsoft 365

Diagnostics & Documentation: Root Cause Analysis, Hardware & Firmware Testing, Connected-Device Validation, Defect Tracking (JIRA, TestRail), Technical Documentation, Knowledge Transfer

Scripting & Cloud: Python, SQL, Java, JavaScript, Postman (REST/SOAP), Azure, Docker, Kubernetes, Terraform, Git, CI/CD

PROFESSIONAL EXPERIENCE

External Consultant, Junior Intune Administrator | Giant Tiger, Ottawa, ON *Oct 2024 – May 2025*

- Administered and supported approximately 1,000 in-office laptops running Windows 10 and Windows 11, delivering both on-site and remote troubleshooting to end users.
- Managed multi-OS devices in Microsoft Intune, handling enrollment, compliance policies, endpoint security and device lifecycle through Endpoint Manager and Entra ID (Azure AD).
- Led enterprise-wide Windows 11 migration using Intune and Windows Autopilot across all business units, automating enrollment with minimal disruption to operations.
- Installed and configured hardware, and supported POS terminals, registers, printers and other store and office endpoints, diagnosing hardware, software and connectivity faults.
- Provided remote support with TeamViewer and tracked, prioritized and resolved incidents in ServiceNow, Freshservice and Jira Service Management.
- Resolved Autopilot and Intune deployment issues through root cause analysis, reducing resolution time and improving deployment efficiency.
- Worked with IT leadership, project managers and cross-departmental stakeholders to align deployment milestones with project goals.

Software Test Engineer → Senior Software Test Engineer | Amazon (Alexa Devices), Chennai, India *Aug 2020 – Aug 2023*

- Inspected, tested and troubleshot consumer hardware and firmware (Echo Buds, Echo Dot, Echo Frames, Fire TV, Astro, 3P accessories), including device behaviour with Alexa companion mobile apps.
- Assisted with hardware setup and installation of devices and accessories for test environments.
- Served as QA lead for the Echo Buds Gen 3 launch, coordinating functional, regression, performance and integration testing across multiple concurrent firmware builds through GA release.
- Performed root cause analysis and managed the full defect lifecycle (log, triage, track, resolve) in JIRA and TestRail, closing issues before release gates.

- Validated device-to-cloud data flow and integration using Postman and REST interfaces; built Python automation that reduced manual testing effort by 30%.
- Promoted to Senior after a performance review; trained new engineers through knowledge transfer sessions and documented QA processes for team consistency.

EDUCATION

Post Graduate Diploma, Cloud Development and Operations *Jan 2025 – Aug 2025*
Algonquin College, Ottawa, ON

Post Graduate Diploma, Applied A.I. Solutions and Development *Sep 2023 – Aug 2024*
George Brown College, Toronto, ON

Bachelor of Engineering, Electrical and Electronics *Mar 2015 – Apr 2019*
SRM University, Chennai, India

ADDITIONAL

- Valid driver's licence; willing to travel across stores and sites for IT and operational support.
- Eligible to work in Canada; able to pursue Canadian Reliability Security Clearance.
